SECTION 1: Identification of the substance/ mixture and of the company/ undertaking

1.1 Product identifier

Product name: O2S 20 PPM; O2 19.9996 %; N2 79.9984 %

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses: Industrial and professional. Perform risk assessment prior to use.

Uses advised against: Consumer use.

1.3 Details of the supplier of the safety data sheet

Supplier: BOC

Priestley Road, Worsley

M28 2UT Manchester

Telephone: 0800 111 333

E-mail: ReachSDS@boc.com

1.4 Emergency telephone number: 0800 111 333

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification according to Directive 67/548/EEC or 1999/45/EC as amended.

Not classified

Classification according to Regulation (EC) No 1272/2008 as amended.

Physical Hazards

Gases under pressure

Compressed gas

H280: Contains gas under pressure; may explode if heated.

2.2 Label Elements

Signal Words: Warning

Hazard Statement(s): H280: Contains gas under pressure; may explode if heated.

Precautionary Statement

Prevention: None.

Response: None.
SAFETY DATA SHEET

O2S 20 PPM; O2 19.9996 %; N2 79.9984 %

Issue Date: 20.12.2012
Last revised date: 11.02.2016
Version: 1.1
SDS No.: 000010006689

2.3 Other hazards:
None.

SECTION 3: Composition/ information on ingredients

3.2 Mixtures

<table>
<thead>
<tr>
<th>Chemical name</th>

<td></td>
</tr>
</tbody>
</table>

The concentrations of the components in the SDS header, product name on page one and in section 3.2 are in mol due to regulatory requirements. All concentrations are nominal.

This substance has workplace exposure limit(s).

PBT: persistent, bioaccumulative and toxic substance.
vPvB: very persistent and very bioaccumulative substance.

Classification

DSD: Directive 67/548/EEC.
Nota 5: The concentration limits for gaseous preparations are expressed as volume per volume percentage.

The full text for all R-phrases and H-statements is displayed in section 16.
SECTION 4: First Aid Measures

General: Adverse effects not expected from this product.

4.1 Description of first aid measures
   Inhalation: Adverse effects not expected from this product.
   Eye contact: Adverse effects not expected from this product.
   Skin Contact: Adverse effects not expected from this product.
   Ingestion: Ingestion is not considered a potential route of exposure.

4.2 Most important symptoms and effects, both acute and delayed:
   None.

4.3 Indication of any immediate medical attention and special treatment needed
   Hazards: None.
   Treatment: None.

SECTION 5: Firefighting Measures

General Fire Hazards: Heat may cause the containers to explode.

5.1 Extinguishing media
   Suitable extinguishing media: Material will not burn. In case of fire in the surroundings: use appropriate extinguishing agent.
   Unsuitable extinguishing media: None.

5.2 Special hazards arising from the substance or mixture:
   Supports combustion.

5.3 Advice for firefighters
   Special fire fighting procedures: In case of fire: Stop leak if safe to do so. Continue water spray from protected position until container stays cool. Use extinguishants to contain the fire. Isolate the source of the fire or let it burn out.
SAFETY DATA SHEET
O2S 20 PPM; O2 19.9996 %; N2 79.9984 %

Issue Date: 20.12.2012  
Last revised date: 11.02.2016  
Version: 1.1  
SDS No.: 000010006689

Special protective equipment for firefighters:
Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Guideline: EN 469 Protective clothing for firefighters. Performance requirements for protective clothing for firefighting. EN 15090 Footwear for firefighters. EN 659 Protective gloves for firefighters. EN 443 Helmets for fire fighting in buildings and other structures. EN 137 Respiratory protective devices - Self-contained open-circuit compressed air breathing apparatus with full face mask - Requirements, testing, marking.

SECTION 6: Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures: None.

6.2 Environmental Precautions: Prevent further leakage or spillage if safe to do so.

6.3 Methods and material for containment and cleaning up: Provide adequate ventilation.

6.4 Reference to other sections: Refer to sections 8 and 13.

SECTION 7: Handling and Storage:

7.1 Precautions for safe handling: Only experienced and properly instructed persons should handle gases under pressure. Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Refer to supplier's handling instructions. The substance must be handled in accordance with good industrial hygiene and safety procedures. Protect containers from physical damage; do not drag, roll, slide or drop. Do not remove or deface labels provided by the supplier for the identification of the container contents. When moving containers, even for short distances, use appropriate equipment eg. trolley, hand truck, fork truck etc. Secure cylinders in an upright position at all times, close all valves when not in use. Provide adequate ventilation. Suck back of water into the container must be prevented. Do not allow backfeed into the container. Avoid suckback of water, acid and alkalis. Keep container below 50°C in a well ventilated place. Observe all regulations and local requirements regarding storage of containers. When using do not eat, drink or smoke. Store in accordance with local/ regional/ national/ international regulations. Never use direct flame or electrical heating devices to raise the pressure of a container. Leave valve protection caps in place until the container has been secured against either a wall or bench or placed in a container stand and is ready for use. Damaged valves should be reported immediately to the supplier. Close container valve after each use and when empty, even if still connected to equipment. Never attempt to repair or modify container valves or safety relief devices. Replace valve outlet caps or plugs and container caps where supplied as soon as container is disconnected from equipment. Keep container valve outlets clean and free from contaminates particularly oil and water. If user experiences any difficulty operating container valves discontinue use and contact supplier. Never attempt to transfer gases from one container to another. Container valve guards or caps should be in place.
7.2 Conditions for safe storage, including any incompatibilities: Containers should not be stored in conditions likely to encourage corrosion. Stored containers should be periodically checked for general conditions and leakage. Container valve guards or caps should be in place. Store containers in location free from fire risk and away from sources of heat and ignition. Keep away from combustible material.

7.3 Specific end use(s): None.

SECTION 8: Exposure Controls/ Personal Protection

8.1 Control Parameters

Occupational Exposure Limits

<table>
<thead>
<tr>
<th>Critical component</th>
<th>type</th>
<th>Value</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>sulphur dioxide</td>
<td>Worker - inhalative, long-term - local</td>
<td>1.3 mg/m³</td>
<td>-</td>
</tr>
<tr>
<td>sulphur dioxide</td>
<td>Worker - inhalative, short-term - local</td>
<td>2.7 mg/m³</td>
<td>-</td>
</tr>
</tbody>
</table>

Remarks

The exposure limits in EH40 for the UK were withdrawn in 2003. Therefore users should follow the same approach for any other hazardous substance, e.g. apply the COSHH regulations.

DNEL-Values

8.2 Exposure controls

Appropriate engineering controls: Consider a work permit system e.g. for maintenance activities. Ensure adequate air ventilation. Provide adequate ventilation, including appropriate local extraction, to ensure that the defined occupational exposure limit is not exceeded. Systems under pressure should be regularly checked for leakages. Preferably use permanent leak tight connections (eg. welded pipes). Do not eat, drink or smoke when using the product.

Individual protection measures, such as personal protective equipment

General information: A risk assessment should be conducted and documented in each work area to assess the risks related to the use of the product and to select the PPE that matches the relevant risk. The following recommendations should be considered. Personal protective equipment for the body should be selected based on the task being performed and the risks involved.

SAFETY DATA SHEET
O2S 20 PPM; O2 19.9996 %; N2 79.9984 %

Issue Date: 20.12.2012
Last revised date: 11.02.2016
Version: 1.1
SDS No.: 000010006689

Skin protection
Hand Protection: Wear working gloves while handling containers
Guideline: EN 388 Protective gloves against mechanical risks.

Body protection: No special precautions.

Other: Wear safety shoes while handling containers
Guideline: ISO 20345 Personal protective equipment - Safety footwear.

Respiratory Protection: Not required.

Thermal hazards: No precautionary measures are necessary.

Hygiene measures: Specific risk management measures are not required beyond good industrial hygiene and safety procedures. Do not eat, drink or smoke when using the product.

Environmental exposure controls: For waste disposal, see section 13.

SECTION 9: Physical And Chemical Properties

9.1 Information on basic physical and chemical properties
Appearance
Physical state: Gas
Form: Compressed gas
Colour: SO2, O2S: Colorless, Colourless
O2: Colorless
N2: Colorless

Odour:
O2: Odorless
N2: Odorless gas
SO2, O2S: Characteristic, irritating, pungent odor

Odour Threshold: Odour threshold is subjective and is inadequate to warn of over exposure.

pH: not applicable.

Melting Point: No data available.
Boiling Point: No data available.
Sublimation Point: not applicable.
Critical Temp. (°C): No data available.
Flash Point: Not applicable to gases and gas mixtures.
Evaporation Rate: Not applicable to gases and gas mixtures.
Flammability (solid, gas): This product is not flammable.
Flammability limit - upper (%): not applicable.
Flammability limit - lower(%): not applicable.
Vapour pressure: No reliable data available.
Vapour density (air=1): 1.01 (calculated) (15 °C)
Relative density: No data available.
Solubility(ies)
Solubility in Water: No data available.
Partition coefficient (n-octanol/ water): Not known.
Autoignition Temperature: not applicable.
Decomposition Temperature: Not known.
Viscosity
  Kinematic viscosity: No data available.
  Dynamic viscosity: No data available.
Explosive properties: Not applicable.
Oxidising Properties: not applicable.

9.2 Other information:
Gas/ vapour heavier than air. May accumulate in confined spaces, particularly at or below ground level.

SECTION 10: Stability and Reactivity

10.1 Reactivity: No reactivity hazard other than the effects described in sub-section below.
10.2 Chemical Stability: Stable under normal conditions.
10.3 Possibility of Hazardous Reactions: None.
10.4 Conditions to Avoid: None.
10.5 Incompatible Materials: No reaction with any common materials in dry or wet conditions.
10.6 Hazardous Decomposition Products: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological Information

General information: None.

11.1 Information on toxicological effects

Acute toxicity - Oral Product Based on available data, the classification criteria are not met.
Acute toxicity - Dermal Product Based on available data, the classification criteria are not met.
Acute toxicity - Inhalation Product ATEmix (4 h): > 20000 ppm Based on available data, the classification criteria are not met.
Component information
  sulphur dioxide LC 50 (Rat, 1.0 h): 2520 ppm
Remarks: Delayed fatal pulmonary oedema possible.

Skin Corrosion/ Irritation
Product  Based on available data, the classification criteria are not met.

Serious Eye Damage/ Eye Irritation
Product  Based on available data, the classification criteria are not met.

Respiratory or Skin Sensitisation
Product  Based on available data, the classification criteria are not met.

Germ Cell Mutagenicity
Product  Based on available data, the classification criteria are not met.

Carcinogenicity
Product  Based on available data, the classification criteria are not met.

Reproductive toxicity
Product  Based on available data, the classification criteria are not met.

Specific Target Organ Toxicity - Single Exposure
Product  Based on available data, the classification criteria are not met.

Specific Target Organ Toxicity - Repeated Exposure
Product  Based on available data, the classification criteria are not met.

Aspiration Hazard
Product  Not applicable to gases and gas mixtures.

SECTION 12: Ecological Information

12.1 Toxicity

Acute toxicity
Product  No ecological damage caused by this product.

Acute toxicity - Fish
Component information  sulphur dioxide  LC 50 (Ile (Leuciscus idus), 1 h): 220 - 460 mg/l

Acute toxicity - Aquatic Invertebrates
Component information  sulphur dioxide  EC 50 (Water flea (Daphnia magna), 48 h): 89 mg/l

Toxicity to microorganisms
Component information  sulphur dioxide  EC 50 (Algae (Scenedesmus subspicatus), 72 h): 48.1 mg/l
12.2 Persistence and Degradability
Product
Not applicable to gases and gas mixtures.

12.3 Bioaccumulative Potential
Product
The product is expected to biodegrade and is not expected to persist for long periods in an aquatic environment.

12.4 Mobility in Soil
Product
Because of its high volatility, the product is unlikely to cause ground or water pollution.

Component information
sulphur dioxide
Because of its high volatility, the product is unlikely to cause ground or water pollution.

12.5 Results of PBT and vPvB assessment
Product
Not classified as PBT or vPvB.

12.6 Other Adverse Effects:
No ecological damage caused by this product.

SECTION 13: Disposal Considerations

13.1 Waste treatment methods

General information:
Vent to atmosphere in a well ventilated place.

Disposal methods:
Dispose of container via supplier only.

European Waste Codes
Container: 16 05 05: Gases in pressure containers other than those mentioned in 16 05 04.

SECTION 14: Transport Information

ADR
14.1 UN Number: UN 1956
14.2 UN Proper Shipping Name: COMPRESSED GAS, N.O.S. (Nitrogen, Oxygen)
14.3 Transport Hazard Class(es)
Class: 2
Label(s): 2.2
Hazard No. (ADR): 20
Tunnel restriction code: (E)
Emergency Action Code: 2TE
14.4 Packing Group: -
14.5 Environmental hazards: not applicable
14.6 Special precautions for user: -
SAFETY DATA SHEET

   Label(s): 2.2
14.4 Packing Group: -
14.5 Environmental hazards: not applicable
14.6 Special precautions for user: -
14.7 Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code: not applicable

Additional identification: Avoid transport on vehicles where the load space is not separated from the driver's compartment. Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency. Before transporting product containers ensure that they are firmly secured. Ensure that the container valve is closed and not leaking. Container valve guards or caps should be in place. Ensure adequate air ventilation.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:

EU Regulations
Directive 96/61/EC: concerning integrated pollution prevention and control (IPPC): Article 15, European Pollution Emission Registry (EPER):

<table>
<thead>
<tr>
<th>Chemical name</th>
<th>CAS-No.</th>
<th>Concentration</th>
</tr>
</thead>
<tbody>
<tr>
<td>sulphur dioxide</td>
<td>7446-09-5</td>
<td>0 - &lt;0.1%</td>
</tr>
</tbody>
</table>

Directive 96/82/EC (Seveso II): on the control of major accident hazards involving dangerous substances:

<table>
<thead>
<tr>
<th>Chemical name</th>
<th>CAS-No.</th>
<th>Concentration</th>
</tr>
</thead>
<tbody>
<tr>
<td>oxygen</td>
<td>7782-44-7</td>
<td>10 - 20%</td>
</tr>
<tr>
<td>sulphur dioxide</td>
<td>7446-09-5</td>
<td>0 - &lt;0.1%</td>
</tr>
</tbody>
</table>

Directive 98/24/EC on the protection of workers from the risks related to chemical agents at work:

<table>
<thead>
<tr>
<th>Chemical name</th>
<th>CAS-No.</th>
<th>Concentration</th>
</tr>
</thead>
<tbody>
<tr>
<td>oxygen</td>
<td>7782-44-7</td>
<td>10 - 20%</td>
</tr>
<tr>
<td>sulphur dioxide</td>
<td>7446-09-5</td>
<td>0 - &lt;0.1%</td>
</tr>
</tbody>
</table>

National Regulations

This Safety Data Sheet has been produced to comply with Regulation (EU) 453/2010.

15.2 Chemical safety assessment: No Chemical Safety Assessment has been carried out.

SECTION 16: Other Information

Revision Information: Not relevant.
Various sources of data have been used in the compilation of this SDS, they include but are not exclusive to:

- Agency for Toxic Substances and Diseases Registry (ATSDR) (http://www.atsdr.cdc.gov/).
- European Industrial Gases Association (EIGA) Doc. 169 Classification and Labelling guide.
- International Programme on Chemical Safety (http://www.inchem.org/)
- ISO 10156:2010 Gases and gas mixtures - Determination of fire potential and oxidizing ability for the selection of cylinder valve outlets.
- The ESIS (European chemical Substances 5 Information System) platform of the former European Chemicals Bureau (ECB) ESIS (http://ecb.jrc.ec.europa.eu/esis/).
- The European Chemical Industry Council (CEFIC) ENICards.
- Threshold Limit Values (TLV) from the American Conference of Governmental Industrial Hygienists (ACGIH).
- Substance specific information from suppliers.
- Details given in this document are believed to be correct at the time of publication.
- EH40 (as amended) Workplace exposure limits.

**Wording of the R-phrases and H-statements in sections 2 and 3**

- H280 Contains gas under pressure; may explode if heated.
- H314 Causes severe skin burns and eye damage.
- H331 Toxic if inhaled.
- R23 Toxic by inhalation.
- R34 Causes burns.

**Training information:**

Ensure operators understand the hazards.

**Classification according to Regulation (EC) No 1272/2008 as amended.**

Press. Gas Compr. Gas, H280

**Other information:**

Before using this product in any new process or experiment, a thorough material compatibility and safety study should be carried out. Ensure adequate air ventilation. Ensure all national/local regulations are observed. Whilst proper care has been taken in the preparation of this document, no liability for injury or damage resulting from its use can be accepted. Note: When the Product Name appears in the SDS header the decimal sign and its position comply with rules for the structure and drafting of international standards, and is a comma on the line. As an example 2,000 is two (to three decimal places) and not two thousand, whilst 1.000 is one thousand and not one (to three decimal places).
