SAFETY DATA SHEET
Argon, compressed

Issue Date: 16.01.2013  Version: 1.4  SDS No.: 000010021700
Last revised date: 02.06.2017  1/12

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
Product name: Argon, compressed
Trade name: Argon Pureshield, Argon Pure, Argon Industrial, Argon Grade N6.0, Argon Research Grade NS.5, Argon Zero Grade NS.0, Argon Food Grade

Additional identification
Chemical name: Argon
Chemical formula: Ar
INDEX No.
CAS-No. 7440-37-1
EC No. 231-147-0

1.2 Relevant identified uses of the substance or mixture and uses advised against
Uses advised against Industrial or technical grade unsuitable for medical and/or food applications or inhalation.

1.3 Details of the supplier of the safety data sheet
Supplier
BOC
Priestley Road, Worsley
M28 2UT Manchester

Telephone: 0800 111 333

E-mail: ReachSDS@boc.com

1.4 Emergency telephone number: 0800 111 333

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture
Classification according to Regulation (EC) No 1272/2008 as amended.

Physical Hazards
Gases under pressure Compressed gas H280: Contains gas under pressure; may explode if heated.
2.2 Label Elements

Signal Words: Warning

Hazard Statement(s): H280: Contains gas under pressure; may explode if heated.

Precautionary Statements

Prevention: None.

Response: None.

Storage: P403: Store in a well-ventilated place.

Disposal: None.

Supplemental label information

EIGA-As: Asphyxiant in high concentrations.

2.3 Other hazards: None.

SECTION 3: Composition/information on ingredients

3.1 Substances

<table>

The purity of the substance in this section is used for classification only, and does not represent the actual purity of the substance as supplied, for which other documentation should be consulted.

Trade name: Argon Pureshield, Argon Pure, Argon Industrial, Argon Grade N6.0, Argon Research Grade N5.5, Argon Zero Grade N5.0, Argon Food Grade
SECTION 4: First Aid Measures

General: In high concentrations may cause asphyxiation. Symptoms may include loss of mobility/consciousness. Victim may not be aware of asphyxiation. Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Apply artificial respiration if breathing stopped.

4.1 Description of first aid measures
   Inhalation: In high concentrations may cause asphyxiation. Symptoms may include loss of mobility/consciousness. Victim may not be aware of asphyxiation. Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Apply artificial respiration if breathing stopped.

   Eye contact: Adverse effects not expected from this product.

   Skin Contact: Adverse effects not expected from this product.

   Ingestion: Ingestion is not considered a potential route of exposure.

4.2 Most important symptoms and effects, both acute and delayed: Respiratory arrest.

4.3 Indication of any immediate medical attention and special treatment needed
   Hazards: None.

   Treatment: None.

SECTION 5: Firefighting Measures

General Fire Hazards: Heat may cause the containers to explode.

5.1 Extinguishing media
   Suitable extinguishing media: Material will not burn. In case of fire in the surroundings: use appropriate extinguishing agent.

   Unsuitable extinguishing media: None.

5.2 Special hazards arising from the substance or mixture: None.

   Hazardous Combustion Products: None.

5.3 Advice for firefighters
   Special fire fighting procedures: In case of fire: Stop leak if safe to do so. Continue water spray from protected position until container stays cool. Use extinguishants to contain the fire. Isolate the source of the fire or let it burn out.
SAFETY DATA SHEET
Argon, compressed

Issue Date: 16.01.2013  Version: 1.4  SDS No.: 000010021700
Last revised date: 02.06.2017  4/12

Special protective equipment for firefighters: Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA. Guideline: EN 469 Protective clothing for firefighters. Performance requirements for protective clothing for firefighting. EN 15090 Footwear for firefighters. EN 659 Protective gloves for firefighters. EN 443 Helmets for fire fighting in buildings and other structures. EN 137 Respiratory protective devices - Self-contained open-circuit compressed air breathing apparatus with full face mask - Requirements, testing, marking.

SECTION 6: Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures: Evacuate area. Provide adequate ventilation. Prevent from entering sewers, basements and workpits, or any place where its accumulation can be dangerous. Wear self-contained breathing apparatus when entering area unless atmosphere is proved to be safe. Guideline EN 137 Respiratory protective devices - Self-contained open-circuit compressed air breathing apparatus with full face mask - Requirements, testing, marking.

6.2 Environmental Precautions: Prevent further leakage or spillage if safe to do so.

6.3 Methods and material for containment and cleaning up: Provide adequate ventilation.

6.4 Reference to other sections: Refer to sections 8 and 13.
SAFETY DATA SHEET
Argon, compressed

Issue Date: 16.01.2013  Version: 1.4  SDS No.: 000010021700
Last revised date: 02.06.2017  5/12

SECTION 7: Handling and Storage:

7.1 Precautions for safe handling: Only experienced and properly instructed persons should handle gases under pressure. Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Refer to supplier's handling instructions. The substance must be handled in accordance with good industrial hygiene and safety procedures. Protect containers from physical damage; do not drag, roll, slide or drop. Do not remove or deface labels provided by the supplier for the identification of the container contents. When moving containers, even for short distances, use appropriate equipment eg. trolley, hand truck, fork truck etc. Secure cylinders in an upright position at all times, close all valves when not in use. Provide adequate ventilation. Suck back of water into the container must be prevented. Do not allow backfeed into the container. Avoid suckback of water, acid and alkalis. Keep container below 50°C in a well ventilated place. Observe all regulations and local requirements regarding storage of containers. When using do not eat, drink or smoke. Store in accordance with local/regional/national/international regulations. Never use direct flame or electrical heating devices to raise the pressure of a container. Leave valve protection caps in place until the container has been secured against either a wall or bench or placed in a container stand and is ready for use. Damaged valves should be reported immediately to the supplier. Close container valve after each use and when empty, even if still connected to equipment. Never attempt to repair or modify container valves or safety relief devices. Replace valve outlet caps or plugs and container caps where supplied as soon as container is disconnected from equipment. Keep container valve outlets clean and free from contaminates particularly oil and water. If user experiences any difficulty operating container valve discontinue use and contact supplier. Never attempt to transfer gases from one container to another. Container valve guards or caps should be in place.

7.2 Conditions for safe storage, including any incompatibilities: Containers should not be stored in conditions likely to encourage corrosion. Stored containers should be periodically checked for general conditions and leakage. Container valve guards or caps should be in place. Store containers in a location free from fire risk and away from sources of heat and ignition. Keep away from combustible material.

7.3 Specific end use(s): None.

SECTION 8: Exposure Controls/Personal Protection

8.1 Control Parameters
   Occupational Exposure Limits

None of the components have assigned exposure limits.
8.2 Exposure controls

Appropriate engineering controls: Consider a work permit system e.g. for maintenance activities. Ensure adequate air ventilation. Provide adequate ventilation, including appropriate local extraction, to ensure that the defined occupational exposure limit is not exceeded. Oxygen detectors should be used when asphyxiating gases may be released. Systems under pressure should be regularly checked for leakages. Preferably use permanent leak tight connections (e.g. welded pipes). Do not eat, drink or smoke when using the product.

Individual protection measures, such as personal protective equipment

General information: A risk assessment should be conducted and documented in each work area to assess the risks related to the use of the product and to select the PPE that matches the relevant risk. The following recommendations should be considered. Keep self contained breathing apparatus readily available for emergency use. Personal protective equipment for the body should be selected based on the task being performed and the risks involved.

Skin protection

Body protection: No special precautions.

Respiratory Protection: Not required.

Thermal hazards: No precautionary measures are necessary.

Hygiene measures: Specific risk management measures are not required beyond good industrial hygiene and safety procedures. Do not eat, drink or smoke when using the product.

Environmental exposure controls: For waste disposal, see section 13.

SECTION 9: Physical And Chemical Properties

9.1 Information on basic physical and chemical properties

Appearance
Physical state: Gas
Form: Compressed gas
Colour: Colorless
Odour: Odorless
Odour Threshold: Odour threshold is subjective and is inadequate to warn of over exposure.
SAFETY DATA SHEET
Argon, compressed

Issue Date: 16.01.2013  Version: 1.4  SDS No.: 000010021700
Last revised date: 02.06.2017  7/12

pH: not applicable.
Melting Point: -189 °C
Boiling Point: -186 °C
Sublimation Point: not applicable.
Critical Temp. (°C): -122.0 °C
Flash Point: Not applicable to gases and gas mixtures.
Evaporation Rate: Not applicable to gases and gas mixtures.
Flammability (solid, gas): This product is not flammable.
Flammability limit - upper (%): not applicable.
Flammability limit - lower(%): not applicable.
Vapour pressure: No reliable data available.
Vapour density (air=1): 1.38
Relative density: 1.4
Solubility(ies)
  Solubility in Water: 61 mg/l
  Partition coefficient (n-octanol/water): Not known.
Autoignition Temperature: not applicable.
Decomposition Temperature: Not known.
Viscosity
  Kinematic viscosity: No data available.
  Dynamic viscosity: No data available.
Explosive properties: Not applicable.
Oxidising Properties: not applicable.

9.2 Other information: Gas/vapour heavier than air. May accumulate in confined spaces, particularly at or below ground level.

Molecular weight: 40 g/mol (Ar)

SECTION 10: Stability and Reactivity

10.1 Reactivity: No reactivity hazard other than the effects described in sub-section below.
10.2 Chemical Stability: Stable under normal conditions.
10.3 Possibility of Hazardous Reactions: None.
10.4 Conditions to Avoid: None.
10.5 Incompatible Materials: No reaction with any common materials in dry or wet conditions.
10.6 Hazardous Decomposition Products: Under normal conditions of storage and use, hazardous decomposition products should not be produced.
SECTION 11: Toxicological Information

General information: None.

11.1 Information on toxicological effects

Acute toxicity - Oral Product
Based on available data, the classification criteria are not met.

Acute toxicity - Dermal Product
Based on available data, the classification criteria are not met.

Acute toxicity - Inhalation Product
Based on available data, the classification criteria are not met.

Skin Corrosion/Irritation Product
Based on available data, the classification criteria are not met.

Serious Eye Damage/Eye Irritation Product
Based on available data, the classification criteria are not met.

Respiratory or Skin Sensitisation Product
Based on available data, the classification criteria are not met.

Germ Cell Mutagenicity Product
Based on available data, the classification criteria are not met.

Carcinogenicity Product
Based on available data, the classification criteria are not met.

Reproductive toxicity Product
Based on available data, the classification criteria are not met.

Specific Target Organ Toxicity - Single Exposure Product
Based on available data, the classification criteria are not met.

Specific Target Organ Toxicity - Repeated Exposure Product
Based on available data, the classification criteria are not met.

Aspiration Hazard Product
Not applicable to gases and gas mixtures.

SECTION 12: Ecological Information

12.1 Toxicity

Acute toxicity Product
No ecological damage caused by this product.
SAFETY DATA SHEET
Argon, compressed

Issue Date: 16.01.2013
Last revised date: 02.06.2017
Version: 1.4
SDS No.: 000010021700

12.2 Persistence and Degradability
Product
The substance is naturally occurring.

12.3 Bioaccumulative Potential
Product
The subject product is expected to biodegrade and is not expected to persist for
long periods in an aquatic environment.

12.4 Mobility in Soil
Product
The substance is a gas, not applicable.

12.5 Results of PBT and vPvB
assessment
Product
Not classified as PBT or vPvB.

12.6 Other Adverse Effects:
No ecological damage caused by this product.

SECTION 13: Disposal Considerations

13.1 Waste treatment methods

General information: Do not discharge into any place where its accumulation could be dangerous. Vent
to atmosphere in a well ventilated place.

Disposal methods: Refer to the EIGA code of practice (Doc.30 "Disposal of Gases", downloadable at
http://www.eiga.org) for more guidance on suitable disposal methods. Dispose
of container via supplier only. Discharge, treatment, or disposal may be subject to
national, state, or local laws.

European Waste Codes
Container: 16 05 05: Gases in pressure containers other than those mentioned in 16 05 04.

SECTION 14: Transport Information

ADR
14.1 UN Number: UN 1006
14.2 UN Proper Shipping Name: ARGON, COMPRESSED
14.3 Transport Hazard Class(es)
Class: 2
Label(s): 2.2
Hazard No. (ADR): 20
Tunnel restriction code: (E)
Emergency Action Code: 2T
14.4 Packing Group: -
14.5 Environmental hazards: not applicable
14.6 Special precautions for user: -

14.4 Packing Group: -
14.5 Environmental hazards: not applicable
14.6 Special precautions for user: -
   Other information
      Passenger and cargo aircraft: Allowed.
      Cargo aircraft only: Allowed.

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: not applicable

Additional identification: Avoid transport on vehicles where the load space is not separated from the driver's compartment. Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency. Before transporting product containers ensure that they are firmly secured. Ensure that the container valve is closed and not leaking. Container valve guards or caps should be in place. Ensure adequate air ventilation.
SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:

National Regulations

This Safety Data Sheet has been produced to comply with Regulation (EU) 2015/830.

15.2 Chemical safety assessment: No Chemical Safety Assessment has been carried out.

SECTION 16: Other Information

Revision Information: Not relevant.

Key literature references and sources for data:

Various sources of data have been used in the compilation of this SDS, they include but are not exclusive to:
- Agency for Toxic Substances and Diseases Registry (ATSDR) (http://www.atsdr.cdc.gov/).
- European Industrial Gases Association (EIGA) Doc. 169 Classification and Labelling guide.
- International Programme on Chemical Safety (http://www.inchem.org/)
- ISO 10156:2010 Gases and gas mixtures - Determination of fire potential and oxidizing ability for the selection of cylinder valve outlets.
- The ESIS (European chemical Substances 5 Information System) platform of the former European Chemicals Bureau (ECB) ESIS (http://ecb.jrc.ec.europa.eu/esis/).
- The European Chemical Industry Council (CEHC) ERI Cards.
- Threshold Limit Values (TLV) from the American Conference of Governmental Industrial Hygienists (ACGIH).
- Substance specific information from suppliers.
- Details given in this document are believed to be correct at the time of publication. EH40 (as amended) Workplace exposure limits.
SAFETY DATA SHEET
Argon, compressed

Issue Date: 16.01.2013    Version: 1.4    SDS No.: 000010021700
Last revised date: 02.06.2017

Wording of the H-statements in sections 2 and 3

H280    Contains gas under pressure; may explode if heated.

Training information:
Users of breathing apparatus must be trained. The hazard of asphyxiation is often overlooked and must be stressed during operator training. Ensure operators understand the hazards.

Classification according to Regulation (EC) No 1272/2008 as amended.
Press. Gas Compr. Gas, H280

Other information:
Before using this product in any new process or experiment, a thorough material compatibility and safety study should be carried out. Ensure adequate air ventilation. Ensure all national/local regulations are observed. Whilst proper care has been taken in the preparation of this document, no liability for injury or damage resulting from its use can be accepted. Note: When the Product Name appears in the SDS header the decimal sign and its position comply with rules for the structure and drafting of international standards, and is a comma on the line. As an example 2,000 is two (to three decimal places) and not two thousand, whilst 1.000 is one thousand and not one (to three decimal places).

Last revised date: 02.06.2017
