SAFETY DATA SHEET
PREMIX ROFIN DC 0XX

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier
Product name: PREMIX ROFIN DC 0XX

1.2 Relevant identified uses of the substance or mixture and uses advised against
Identified uses: Industrial and professional. Perform risk assessment prior to use.
Uses advised against: Consumer use.

1.3 Details of the supplier of the safety data sheet
Supplier
BOC
Priestley Road, Worsley
M28 2UT Manchester

Telephone: 0800 111 333

E-mail: ReachSDS@boc.com

1.4 Emergency telephone number: 0800 111 333

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture
Classification according to Directive 67/548/EEC or 1999/45/EC as amended.
Repr. 1; R61 T; R23 T; R48/23

The full text for all R-phrases is displayed in section 16.

Classification according to Regulation (EC) No 1272/2008 as amended.
Physical Hazards
Gases under pressure Compressed gas H280: Contains gas under pressure; may explode if heated.

Health Hazards
Toxic to reproduction Category 1A H360D: May damage the unborn child.
Specific Target Organ Toxicity - Repeated Exposure Category 2 H373: May cause damage to organs through prolonged or repeated exposure.
2.2 Label Elements

Contains: carbon monoxide

Signal Words: Danger

Hazard Statement(s):
H280: Contains gas under pressure; may explode if heated.
H360D: May damage the unborn child.
H373: May cause damage to organs through prolonged or repeated exposure.

Precautionary Statement
Prevention: P202: Do not handle until all safety precautions have been read and understood.
P260: Do not breathe gas/ vapors.

Response: P308+P313: IF exposed or concerned: Get medical advice/ attention.

Storage: P403: Store in a well-ventilated place.

Disposal: None.

Supplemental label information
Restricted to professional users.

2.3 Other hazards: None.

SECTION 3: Composition/ information on ingredients

3.2 Mixtures

DSD: Directive 67/548/EEC.

The full text for all R-phrases and H-statements is displayed in section 16.

SECTION 4: First aid measures

General: Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Apply artificial respiration if breathing stopped.

4.1 Description of first aid measures

Inhalation: Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Apply artificial respiration if breathing stopped. Low concentrations of CO2 cause increased respiration and headache.

Eye contact: Adverse effects not expected from this product.

Skin Contact: Adverse effects not expected from this product.

Ingestion: Ingestion is not considered a potential route of exposure.

4.2 Most important symptoms and effects, both acute and delayed:

Danger of serious damage to health by prolonged exposure. Causes damage to organs.

4.3 Indication of any immediate medical attention and special treatment needed

Hazards: Danger of serious damage to health by prolonged exposure. Causes damage to organs.

Treatment: Get immediate medical advice/attention.

SECTION 5: Firefighting measures

General Fire Hazards: Heat may cause the containers to explode.

5.1 Extinguishing media

Suitable extinguishing media: Use water spray to reduce vapors or divert vapor cloud drift. Water. Dry powder. Foam. Carbon Dioxide.
SAFETY DATA SHEET
PREMIX ROFIN DC 0XX

Issue Date: 16.10.2013
Last revised date: 25.05.2016
Version: 1.0
SDS No.: 000010022089

Unsuitable extinguishing media: None.

5.2 Special hazards arising from the substance or mixture:
No data available.

Hazardous Combustion Products: None that are more toxic than the product itself.

5.3 Advice for firefighters
Special fire fighting procedures:
In case of fire: Stop leak if safe to do so. Keep run-off water out of sewers and water sources. Dike for water control. Continue water spray from protected position until container stays cool. Use extinguishants to contain the fire. Isolate the source of the fire or let it burn out.

Special protective equipment for fire-fighters:
Gas tight chemically protective clothing (Type 1) in combination with self-contained breathing apparatus.
Guideline: EN 943-2 Protective clothing against liquid and gaseous chemicals, aerosols and solid particles. Performance requirements for gas-tight (Type 1) chemical protective suits for emergency teams (ET)

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures:
Evacuate area. Provide adequate ventilation. Monitor the concentration of the released product. Prevent from entering sewers, basements and workpits, or any place where its accumulation can be dangerous. Wear self-contained breathing apparatus when entering area unless atmosphere is proved to be safe. EN 137 Respiratory protective devices - Self-contained open-circuit compressed air breathing apparatus with full face mask - Requirements, testing, marking.

6.2 Environmental Precautions:
Prevent further leakage or spillage if safe to do so. Reduce vapour with fog or fine water spray. Keep run-off water out of sewers and water sources. Dike for water control.

6.3 Methods and material for containment and cleaning up:
Provide adequate ventilation.

6.4 Reference to other sections:
Refer to sections 8 and 13.
SAFETY DATA SHEET
PREMIX ROFIN DC 0XX

SECTION 7: Handling and storage:

7.1 Precautions for safe handling:
Only experienced and properly instructed persons should handle gases under pressure. Avoid exposure - obtain special instructions before use. Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Installation of a cross purge assembly between the container and the regulator is recommended. Excess pressure must be vented through an appropriate scrubber system. Refer to supplier’s handling instructions. The substance must be handled in accordance with good industrial hygiene and safety procedures. Protect containers from physical damage; do not drag, roll, slide or drop. Do not remove or deface labels provided by the supplier for the identification of the container contents. When moving containers, even for short distances, use appropriate equipment eg. trolley, hand truck, fork truck etc. Secure cylinders in an upright position at all times, close all valves when not in use. Provide adequate ventilation. Suck back of water into the container must be prevented. Do not allow backfeed into the container. Avoid suckback of water, acid and alkalis. Keep container below 50°C in a well ventilated place. Observe all regulations and local requirements regarding storage of containers. When using do not eat, drink or smoke. Store in accordance with local/ regional/ national/ international regulations. Never use direct flame or electrical heating devices to raise the pressure of a container. Leave valve protection caps in place until the container has been secured against either a wall or bench or placed in a container stand and is ready for use. Damaged valves should be reported immediately to the supplier Close container valve after each use and when empty, even if still connected to equipment. Never attempt to repair or modify container valves or safety relief devices. Replace valve outlet caps or plugs and container caps where supplied as soon as container is disconnected from equipment. Keep container valve outlets clean and free from contaminates particularly oil and water. If user experiences any difficulty operating container valve discontinue use and contact supplier. Never attempt to transfer gases from one container to another. Container valve guards or caps should be in place.

7.2 Conditions for safe storage, including any incompatibilities:
Containers should not be stored in conditions likely to encourage corrosion. Keep away from food, drink and animal feeding stuffs. Stored containers should be periodically checked for general conditions and leakage. Container valve guards or caps should be in place. Store containers in location free from fire risk and away from sources of heat and ignition. Keep away from combustible material.

7.3 Specific end use(s):
None.

### 8.2 Exposure controls

#### Appropriate engineering controls:

Consider a work permit system e.g. for maintenance activities. Ensure adequate air ventilation. Provide adequate general and local exhaust ventilation. Keep concentrations well below occupational exposure limits. Systems under pressure should be regularly checked for leakages. Product to be handled in a closed system and under strictly controlled conditions. Only use permanent leak tight installations (e.g. welded pipes). Do not eat, drink or smoke when using the product.
Individual protection measures, such as personal protective equipment

General information: A risk assessment should be conducted and documented in each work area to assess the risks related to the use of the product and to select the PPE that matches the relevant risk. The following recommendations should be considered. Keep self contained breathing apparatus readily available for emergency use. Keep suitable chemically resistant protective clothing readily available for emergency use. Personal protective equipment for the body should be selected based on the task being performed and the risks involved. Protect eyes, face and skin from contact with product. Refer to local regulations for restriction of emissions to the atmosphere. See section 13 for specific methods for waste gas treatment.

Skin protection
Hand Protection: Wear working gloves while handling containers Guideline: EN 388 Protective gloves against mechanical risks. Chemically resistant gloves complying with EN 374 should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Guideline: EN 374-1/2/3 Protective gloves against chemicals and microorganisms.

Body protection: No special precautions.

Other: Wear safety shoes while handling containers Guideline: ISO 20345 Personal protective equipment - Safety footwear.

Respiratory Protection: Reference should be made to European Standard EN 689 for methods for the assessment of exposure by inhalation to chemical agents and national guidance documents for methods for the determination of hazardous substances. The selection of the Respiratory Protective Device (RPD) must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected RPD.

Thermal hazards: No precautionary measures are necessary.

Hygiene measures: Obtain special instructions before use. Specific risk management measures are not required beyond good industrial hygiene and safety procedures. Do not eat, drink or smoke when using the product.

Environmental exposure controls: For waste disposal, see section 13 of the SDS.
SAFETY DATA SHEET
PREMIX ROFIN DC 0XX

CO: Colorless
CO₂: Odorless
CO: Odorless

Odor Threshold: Odor threshold is subjective and is inadequate to warn of over exposure.

pH: not applicable.

Melting Point: No data available.

Boiling Point: No data available.

Sublimation Point: not applicable.

Critical Temp. (°C): No data available.

Flash Point: Not applicable to gases and gas mixtures

Evaporation Rate: Not applicable to gases and gas mixtures

Flammability: This product is not flammable.

Flammability Limit - Upper (%): not applicable.

Flammability Limit - Lower (%): not applicable.

Vapor pressure: No reliable data available.

Vapor density (air=1): 0.57 (calculated) (15 °C)

Relative density: No data available.

Solubility: No data available.

Solubility in Water: Not applicable.

Partition coefficient (n-octanol/ water): Not known.

Autoignition Temperature: Not applicable.

Decomposition Temperature: Not known.

Viscosity

Kinematic viscosity: No data available.

Dynamic viscosity: No data available.

Explosive properties: Not applicable.

Oxidizing properties: not applicable.

9.2 Other information: None.

SECTION 10: Stability and reactivity

10.1 Reactivity: No reactivity hazard other than the effects described in sub-section below.

10.2 Chemical Stability: Stable under normal conditions.

10.3 Possibility of hazardous reactions: No data available.

10.4 Conditions to avoid: Avoid moisture in the installation.

10.5 Incompatible Materials: Moisture. For material compatibility see latest version of ISO-11114.
10.6 Hazardous Decomposition Products: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

SECTION 11: Toxicological information

General information: Carbon monoxide: Has been shown to produce adverse effects to the cardiovascular, central nervous, and reproductive systems in laboratory animals and chronically exposed humans.

11.1 Information on toxicological effects

Acute toxicity - Oral Product Based on available data, the classification criteria are not met.

Acute toxicity - Dermal Product Based on available data, the classification criteria are not met.

Acute toxicity - Inhalation Product ATEmix (4 h): > 20000 ppm Based on available data, the classification criteria are not met.

Component Information carbon monoxide LC 50 (Rat, 4 h): 1300 ppm

LC 50 (Rat, 1 h): 3760 ppm

Repeated dose toxicity Component Information carbon monoxide LOAEC (Rat, Inhalation): 200 ppm (Target Organ(s): Respiratory system)

Skin Corrosion/ Irritation Product Based on available data, the classification criteria are not met.

Component Information carbon monoxide Not classified as an irritant.

Serious Eye Damage/ Eye Irritation Product Based on available data, the classification criteria are not met.

Component Information carbon monoxide Not classified as an irritant.

Respiratory or Skin Sensitization Product Based on available data, the classification criteria are not met.
### Component Information

**carbon monoxide**

No known effects from this product.

### Germ Cell Mutagenicity

**Product**

Based on available data, the classification criteria are not met.

**Component Information**

**carbon monoxide**

There is no evidence of mutagenic potential.

### Carcinogenicity

**Product**

Based on available data, the classification criteria are not met.

**Component Information**

**carbon monoxide**

No evidence of carcinogenic effects.

### Reproductive toxicity

**Product**

May damage fertility or the unborn child.

**Component Information**

**carbon monoxide**

May damage fertility or the unborn child.

### Reproductive toxicity (Fertility)

**Component Information**

**carbon monoxide**

NOAEC (embryotoxicity): 65 ppm

### Developmental toxicity (Teratogenicity)

**Component Information**

**carbon monoxide**

LOAEC: 125 ppm

### Specific Target Organ Toxicity - Single Exposure

**Product**

Based on available data, the classification criteria are not met.

**Component Information**

**carbon monoxide**

Route of Exposure: Inhalation

Target Organ(s): Blood

Causes damage to red blood cells (haemolytic poison). Carbon monoxide binds reversibly to haemoglobin (Hb) to form carboxyhaemoglobin (CoHb), reducing the capacity of the blood to transport oxygen.

### Specific Target Organ Toxicity - Repeated Exposure

**Product**

May cause damage to organs through prolonged or repeated exposure.
**Component Information**
carbon monoxide

**Route of Exposure:** Inhalation
**Target Organ(s):** Heart
**Risk of serious health injuries in case of long term exposure.**

**Aspiration Hazard Product**
Not applicable to gases and gas mixtures.

### SECTION 12: Ecological information

**12.1 Toxicity**

**Acute toxicity Product**
No ecological damage caused by this product.

**12.2 Persistence and Degradability Product**
Not applicable to gases and gas mixtures.

**Component Information**
carbon monoxide

Will not undergo hydrolysis.

**Biodegradation Component Information**
carbon monoxide
Not readily biodegradable. Inorganic compound.

**12.3 Bioaccumulative Potential Product**
The product is expected to biodegrade and is not expected to persist for long periods in an aquatic environment.

**Component Information**
carbon monoxide
Because of the low log Kow, accumulation in organisms is not expected.

**12.4 Mobility in Soil Product**
Because of its high volatility, the product is unlikely to cause ground or water pollution.

**Component Information**
carbon monoxide
Because of its high volatility, the product is unlikely to cause ground or water pollution.

**12.5 Results of PBT and vPvB assessment Product**
Not classified as PBT or vPvB.
12.6 Other Adverse Effects:

**Global Warming Potential**

Global warming potential: 0.3
When discharged in large quantities may contribute to the greenhouse effect.

**Component Information**

- **Carbon dioxide**
  
  - UN / IPCC Greenhouse Gas Global Warming Potentials (IPCC Fourth Assessment Report, Climate Change, Table TS.2)
  - Global warming potential: 1100-yr

- **Carbon monoxide**
  
  - Global warming potential: 1.9

SECTION 13: Disposal considerations

13.1 Waste treatment methods

**General information:**
Avoid discharges to atmosphere. Consult supplier for specific recommendations.

**Disposal methods:**
Refer to the EIGA code of practice (Doc.30 "Disposal of Gases", downloadable at http://www.eiga.org) for more guidance on suitable disposal methods. Dispose of container via supplier only. Discharge, treatment, or disposal may be subject to national, state, or local laws.

**European Waste Codes**

- **Container:** 16 05 04*: Gases in pressure containers (including halons) containing dangerous substances.

SECTION 14: Transport information

**ADR**

- **14.1 UN Number:** UN 1956
- **14.2 UN Proper Shipping Name:** COMPRESSED GAS, N.O.S.(Helium, Carbon Monoxide)
- **14.3 Transport Hazard Class(es)**
  - Class: 2
  - Label(s): 2.2
  - Hazard No. (ADR): 20
  - Tunnel restriction code: (E)
  - Emergency Action Code: 2TE
- **14.4 Packing Group:** -
- **14.5 Environmental hazards:** not applicable
- **14.6 Special precautions for user:** -
RID
14.1 UN Number: UN 1956
14.2 UN Proper Shipping Name: COMPRESSED GAS, N.O.S. (Helium, Carbon Monoxide)
14.3 Transport Hazard Class(es):

   Label(s): 2.2
14.4 Packing Group: -
14.5 Environmental hazards: not applicable
14.6 Special precautions for user: -
   Other information
   Passenger and cargo aircraft: Allowed.
   Cargo aircraft only: Allowed.

14.7 Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code: not applicable

Additional identification: Avoid transport on vehicles where the load space is not separated from the driver's compartment. Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency. Before transporting product containers ensure that they are firmly secured. Ensure that the container valve is closed and not leaking. Container valve guards or caps should be in place. Ensure adequate air ventilation.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:

EU Regulations

Regulation (EC) No. 1907/2006 Annex XVII Substances subject to restriction on marketing and use:
### Directive 92/85/EEC: on the safety and health of pregnant workers and workers who have recently given birth or are breast feeding:

<table>

</tbody>
</table>

### National Regulations

This Safety Data Sheet has been produced to comply with Regulation (EU) 453/2010.

### 15.2 Chemical safety assessment:

No Chemical Safety Assessment has been carried out.
SAFETY DATA SHEET  
PREMIX ROFIN DC 0XX

Issue Date: 16.10.2013  
Last revised date: 25.05.2016

SECTION 16: Other information

Revision Information: Not relevant.

Key literature references and sources for data:
Various sources of data have been used in the compilation of this SDS, they include but are not exclusive to:
Agency for Toxic Substances and Diseases Registry (ATSDR) (http://www.atsdr.cdc.gov/).
European Chemical Agency: Guidance on the Compilation of Safety Data Sheets.
European Industrial Gases Association (EIGA) Doc. 169 Classification and Labelling guide.
International Programme on Chemical Safety (http://www.inchem.org/)
ISO 10156:2010 Gases and gas mixtures - Determination of fire potential and oxidizing ability for the selection of cylinder valve outlets.
National Institute for Standards and Technology (NIST) Standard Reference Database Number 69.
The ESIS (European chemical Substances 5 Information System) platform of the former European Chemicals Bureau (ECB) ESIS (http://ecb.jrc.ec.europa.eu/esis/).
The European Chemical Industry Council (CEFIC) ERICards.
Threshold Limit Values (TLV) from the American Conference of Governmental Industrial Hygienists (ACGIH).
Substance specific information from suppliers.
Details given in this document are believed to be correct at the time of publication.
EH40 (as amended) Workplace exposure limits.

Wording of the R-phrases and H-statements in section 2 and 3

H220 Extremely flammable gas.
H280 Contains gas under pressure; may explode if heated.
H331 Toxic if inhaled.
H360D May damage the unborn child.
H372 Causes damage to organs through prolonged or repeated exposure.
H373 May cause damage to organs through prolonged or repeated exposure.
R12 Extremely flammable.
R23 Toxic by inhalation.
R48/23 Toxic: danger of serious damage to health by prolonged exposure through inhalation.
R61 May cause harm to the unborn child.

Training information:
Users of breathing apparatus must be trained. Ensure operators understand the toxicity hazard.

Classification according to Regulation (EC) No 1272/2008 as amended.
Repr. 1A, H360D
STOT RE 2, H373
Press. Gas Compr. Gas, H280

SDS_GB - 000010022089
Other information:

Before using this product in any new process or experiment, a thorough material compatibility and safety study should be carried out. Ensure adequate air ventilation. Ensure all national/local regulations are observed. Whilst proper care has been taken in the preparation of this document, no liability for injury or damage resulting from its use can be accepted. Note: When the Product Name appears in the SDS header the decimal sign and its position comply with rules for the structure and drafting of international standards, and is a comma on the line. As an example 2,000 is two (to three decimal places) and not two thousand, whilst 1,000 is one thousand and not one (to three decimal places).

Last revised date:

25.05.2016
