Immediately flush eyes thoroughly with water for at least 15 minutes.
Remove contaminated clothing. Drench affected area with water for at least 15 minutes
Obtain medical assistance
Ingestion: Ingestion is not considered a potential route of exposure.

5 FIRE FIGHTING MEASURES

Specific hazards: Non flammable
Exposure to fire may cause containers to rupture/explode.
Hazardous combustion products: None that are more toxic than the product itself.
Suitable extinguishing media: All known extinguishants can be used.
Specific methods
If possible, stop flow of product.
Move away from the container and cool with water from a protected position.

Special protective equipment for fire fighters
Use self-contained breathing apparatus and chemically protective clothing.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions
Evacuate area.
Use self-contained breathing apparatus and chemically protective clothing.
Ensure adequate air ventilation.

Environmental precautions
Try to stop release.
Prevent from entering sewers, basements and workpits, or any place where its accumulation can be dangerous.
Reduce vapour with fog or fine water spray.

Clean up methods
Ventilate area.
Wash contaminated equipment or sites of leaks with copious quantities of water.
Hose down area with water.
